

COMPOSITION 100% ZOYSIA

ZOYSIA

Zoysia Zorro was ranked first among zoysias in the NTEP (National Turfgrass Evaluation Program). Zoysia Zorro was launched in 2002 and has become one of the most popular zoysia grasses on the market. It grows in full sun or partial shade and requires only 3 to 4 hours of sunlight to maintain.

CLIMATE

Heat Tolerance:

Cold Tolerance:

Shade Tolerance:

Drought Tolerance:

Salt Tolerance:

Water Requirements:

RESISTANCE

Excelent Traffic Tolerance

High Resistance to Pests and Diseases

High Resilience and Fast Regrowth

Maintains its Color at temperatures above 8°C

MAINTENANCE

Mowing frequency:

Very Low

Recommended mowing height:

12.7 - 50.8 mm

Fertilizer requirement:

Low

AESTHETICS

- Colour: Shiny, deep green.
- Leaf width: Very fine.
- Applications: Sports Fields and Landscapes.
