

CREEPING BENTGRASS

Birdie is a modern variety of Creeping Bentgrass designed for high-level greens, which stands out in NTEP trials for its high overall quality and uniformity.

With outstanding turf density, very fine leaves and rapid recovery from wear, it offers consistent performance and a neat appearance throughout the season. It is designed for courses seeking precision, stability and consistency.

CLIMATE

Heat Tolerance:

Cold Tolerance:

Shade Tolerance:

Drought Tolerance:

Sun Tolerance:

Water requirements:

RESISTANCE

High Traffic Tolerance

High Resistance to Pests and Diseases

Medium Resistance to Salinity

MAINTENANCE

Mowing Frequency:

High

Recommended Mowing Height:

2,5 - 5 mm

Fertilizer requirement:

Low/Moderate
